

Miss Angela the K.E.S. Nurse

By: Dylan and Madison Grade 4

Our nurse, Miss Angela (Angela Carrier), has worked here for 4 years at Kensington Elementary School. She takes care of the people in our school, she helps to keep us healthy, and teaches us how to stay healthy in life. Miss Angela is always very kind.

Miss Angela has 3 degrees, which are art, teaching, and nursing. The first college that she went to was called Salem State College. She went there for her bachelor's degree. After that, she went to Regis College for her nursing degree.

The most important part of Miss Angela's job is to keep all of the kids in the school healthy. In our opinion, she is the best nurse in the world. She is so nice and always cares about the kids. Miss Angela takes time out of her day to make sure that we are healthy and happy.
