

## All about Mrs. Plourde

By: Rylee, Reilly, Max, and Davis from 4K

Mrs. Plourde is our very lovely STEM teacher. Mrs. Plourde has been working at Kensington Elementary School for 3 years. She was a special

education teacher at Lincoln Street School. At K.E.S, Mrs. Plourde has taught one year in 2nd grade, one year in 4th grade, and one year teaching STEM. Mrs. Plourde still runs summer camp every once in awhile.

Mrs. Plourde thinks it's important that the students are doing things and having fun with their friends. She is a awesome and creative STEM teacher, that always has something fun planned for us!

Mrs. Plourde has a bachelor's degree in english. Then she got a certification in elementary education K-8 and special education, and finally she got her master's degree in education.

our opinion is that Mrs. Plourde is a really nice teacher and that whenever a kid is feeling down she is there to help. we love having her here at K.E.S and we think she is an great STEM teacher! we all hope that she will teach STEM again next year. Mrs. Plourde makes every day special and fun! Mrs. Plorde completes the school.
